PRIVACY POLICY – DAGGPT

Last Updated: January 30, 2026

Effective Date: January 30, 2026

Entity: QHTECH SOLUTIONS L.L.C

---

1. OVERVIEW AND CORPORATE MISSION

QHTECH SOLUTIONS L.L.C ("the Company," "we," "us," or "our") operates the **DAGGPT** platform (https://daggpt.network). We recognize that privacy is a fundamental right, especially in the era of Generative Artificial Intelligence. This comprehensive Privacy Policy describes our rigorous standards for collecting, processing, and protecting your data.

This document is designed to meet the requirements of global data protection frameworks, including the **EU General Data Protection Regulation (GDPR)** and the **UAE Data Protection Law**.

---

2. SCOPE AND APPLICABILITY

This policy applies to all users globally. It covers:

- **The Platform:** All interactions on https://daggpt.network.

- **AI Services:** Text, image, video, and music generation powered by DAGGPT.

- **Support Channels:** Any data provided via support@daggpt.network.

---

3. DETAILED CATEGORIES OF DATA COLLECTED

3.1. User-Provided Data

We strictly minimize data collection. We **do not** collect professional credentials, government IDs, or sensitive biometric data. We collect:

- **Identity Data:** Full Name and Email Address.

- **User Prompts (Input):** The text, descriptions, or parameters you provide to generate AI outputs.

- **Support Data:** Records of correspondence if you contact our support team.

3.2. Automated Technical Data

To ensure platform stability and prevent DDoS attacks, our servers log:

- **Network Identifiers:** IP addresses and approximate geolocation.

- **Device Metadata:** Browser type/version, operating system, and screen resolution.

- **Interaction Telemetry:** Clickstream data, time spent on features, and error logs.

---

4. THE GENERATIVE AI DATA LIFECYCLE

Unlike traditional software, DAGGPT processes data through Large Language Models (LLMs).

4.1. Prompt Processing

When you enter a prompt, it is sent to our processing engine (integrated via Google Vertex AI or other secure LLM providers). Your input is used to generate the response and is not permanently stored as "training data" for our foundational models unless you provide explicit, separate consent.

4.2. Output Ownership

While we facilitate the generation of text, images, and video, we do not claim ownership of the **outputs** created by users. However, we retain metadata about the generation (e.g., "Image generated at 10:00 AM") for billing and security audits.

---

5. GDPR COMPLIANCE (EUROPEAN UNION & EEA)

For users residing in the European Economic Area (EEA), we act as the **Data Controller**.

5.1. Legal Bases for Processing (Article 6 GDPR)

We process your data under the following legal grounds:

- **Contractual Necessity:** To provide the AI services you requested.

- **Legitimate Interests:** To improve our AI models, detect fraud, and ensure network security.

- **Consent:** For marketing communications (which you may withdraw at any time).

5.2. International Data Transfers (Article 46 GDPR)

As QHTECH SOLUTIONS L.L.C is based in Dubai, UAE, data from EU users is transferred outside the EEA. We ensure a high level of protection by:

- Using **Standard Contractual Clauses (SCCs)** approved by the European Commission.

- Ensuring our cloud providers (e.g., Google Cloud/Vertex AI) adhere to the **EU-U.S. Data Privacy Framework** where applicable.

5.3. Your Rights Under GDPR

EU users possess the following rights:

1. **Right to Access:** Request a copy of all data we hold about you.

2. **Right to Rectification:** Correct inaccurate names or email addresses.

3. **Right to Erasure ("Right to be Forgotten"):** Request the permanent deletion of your account and prompt history.

4. **Right to Data Portability:** Receive your data in a structured, machine-readable format.

5. **Right to Object:** Object to processing based on our legitimate interests.

To exercise these rights, email **support@daggpt.network**. We will respond within 30 days.

---

6. DATA SHARING AND SUB-PROCESSORS

We do not sell your data. We share it only with "Sub-processors" necessary for platform operation:

Sub-processor	Purpose	Location
Google Vertex AI	Generative AI Processing	USA / Global
Stripe/Payment Gateway	Subscription Billing	USA / Global
Cloudflare	DDoS Protection & CDN	Global

---

7. DATA RETENTION AND ARCHIVAL

We retain data only as long as your account is active:

- **Active Accounts:** Prompt history is saved for your convenience within the platform.

- **Deleted Accounts:** Upon account deletion, all personal identifiers are purged within 60 days.

- **Financial Records:** Transaction data is kept for 7 years to comply with UAE tax and audit laws.

---

8. TECHNICAL AND ORGANIZATIONAL SECURITY

We employ "Privacy by Design" principles:

- **Encryption:** All data in transit is protected via TLS 1.3; data at rest is encrypted using AES-256.

- **Access Control:** We use Role-Based Access Control (RBAC) to ensure only authorized personnel can view technical logs.

- **Anonymization:** We attempt to strip PII from prompts before they are used for model fine-tuning (if applicable).

---

9. COOKIES AND TRACKING TECHNOLOGIES

DAGGPT uses cookies for:

- **Essential Tasks:** Keeping you logged in.

- **Analytics:** Understanding which AI models (text vs. image) are most popular.

- **Preferences:** Saving your UI theme (Light/Dark mode).

---

10. CHILDREN'S PRIVACY (COPPA/GDPR-K)

The Platform is intended for users aged 18 and older. We do not knowingly collect data from minors. If we discover a user is under 18, we will terminate the account and delete the data immediately.

---

11. AMENDMENTS TO THIS POLICY

We reserve the right to update this policy as AI regulations evolve. Significant changes (e.g., changes in how prompts are used) will be notified via the email address on your account.

---
